

ABC Speech Partners
empowering children to communicate

PEDIATRIC SPEECH & LANGUAGE SERVICES

Does your child follow directions?

Is your child's speech understandable to you and others?

Does your child use new words each week?

Does your child ask and answer questions?

Does your child tell stories?

Does your child play and socialize with other children?

If you have concerns with your child's speech and language development, now is the time to consider having your child's communication skills screened by ABC Speech Partners. A speech and language screening is a "snapshot" of your child's current skills and ensures he or she is keeping pace with what is expected for normal development.

Early identification and intervention of communication delays can greatly improve a child's chance of success in school. It is never too early to identify delays and begin *speech-language therapy on campus at New Covenant School with ABC Speech Partners!*

Speech and language screenings are offered by certified speech-language pathologists with ABC Speech Partners at New Covenant School. Based on the screening results, recommendations will be suggested. The fee for the screening is \$20 per student.

We encourage you to take advantage of this unique opportunity and allow your child to participate. ABC Speech Partners would love the opportunity to support your child while enrolled at New Covenant School. If you have any questions, please do not hesitate to contact Aimee Edwards or Barb Iuorio with ABC Speech Partners.
